

OL 7509-89
04 December 1989

MEMORANDUM FOR: Director of Medical Services

STAT
FROM: [REDACTED]
Director of Logistics
SUBJECT: Jogging Trail

1. The jogging trail was officially turned over to us by the contractor on 04 December 1989. Minor cleanup needs to be done in the area. None of this work would preclude use of the trail by Agency personnel. We will also provide additional landscaping to screen portions of the trail from our Savile Lane neighbors.

2. Office of Logistics now turns this facility over to Office of Medical Services for operation. I suggest that access and operating hours be coordinated with the Office of Security. For your information, on 30 October a representative of the Secret Service reiterated that President Bush would like to try out our jogging trail when completed.
